

# HOUDINI

My Hero

## MAGIC SHOW

Join Tom Yurasits in a fun filled show as he performs magic and tells you about his boyhood hero - Harry Houdini. Tom has studied Houdini for over 25 years learning Houdini's secrets and the business of Magic & Escapes by reading about Houdini. He will demonstrate a few of Houdini's famous feats that made Houdini a household name. Even today, 89 years after his death, every person knows the name Houdini! Walk down any street in the world and ask anyone, young or old, to name the most famous escape artist and magician in the world, and they will say Houdini!

Tom will let the audience in on a little secret and let them know that they can be like their hero too, by studying and working hard. Tom will discuss how when Houdini would be challenged and told he couldn't do something, he worked even harder to prove he could do it. They will even hear Houdini's voice from an excerpt of the only recording that he made on a wax cylinder over 100 years ago in 1914.

Houdini would walk through a solid brick wall in his stage shows and Tom will give a demonstration of this in a smaller format that is quite puzzling. Then Tom will attempt to walk through a one foot by two foot piece of solid steel that is first examined by the audience. You don't want to miss this show!
